

## Technical Data

---

For more documents see [Documents & Downloads](#) .

|  |                                    |
|--|------------------------------------|
| Triaxial vibration value for hammer drilling into concrete (ah,HD) | 11.4 m/s <sup>2</sup> <sup>1</sup> |
| A-weighted emission sound pressure level                           | 93 dB (A) <sup>2</sup>             |
| Single impact energy   | 5.2 J                              |
| Rotation speed gear 1 under no load                                | 550 tours/minute                   |
| Full hammering frequency   | 3180 impacts/minute                |
| Contact force  | 110 N                              |
| Optimum drilling diameter range for hammer drill bits              | 16 - 25 mm                         |
| Dimensions (LxWxH)   | 462 x 113 x 243 mm                 |
| Weight according to EPTA Procedure 01/2003                         | 5.8 kg                             |
| Chiselling function  | Yes                                |
